Options that need a decision

TOOL	WHAT YOU PAY NOW	OPTION AND ITS COST TO YOU	PER YEAR	PRICE SOURCE
Zapier + Make	Zapier Team from \$69 and Make Pro at \$21, both running automations	Move the 6 Zaps to Make and close Zapier. About a day of rebuilding. Your Zapier task tier was not in the export, so the saving could be higher.	\$828	zapier.com, make.com · 9 Oct
beehiiv	Lite at \$49 a month on the 1,000-subscriber tier, billed yearly, 900 subscribers	The Free plan covers up to 2,500 subscribers. Check that you don't rely on a Lite-only feature first.	\$588	beehiiv.com/pricing · 9 Oct
Claude	6 personal Pro plans at \$20 a month, on staff cards	Pro paid yearly is \$200. Team Standard is the same \$20 a seat billed yearly, with central billing and no saving.	\$240	claude.com/pricing · 9 Oct

Renewals coming up

Unknown, not guessed

- Vercel Pro usage above the \$20 seat price. Usage bills were not in the export.
- Zapier's task tier. Only "from \$69" is published.
- Tax and currency on each card charge.

Kept as they are

- Linear Basic, Copilot Pro, Webflow Premium (4 client sites), Supabase Pro, Resend Pro and Vercel Pro seats are the right size for current use.

How this works. You send a read-only export: card statements or an invoice list for the last three months, plus seat counts. No logins. Every price comes from the vendor's official page, with the date it was read. Fewertools takes no commission on any switch it suggests. **The fee is £300 for teams up to 25 and is only due if the check finds at least three times the fee in yearly savings you can act on without changing tools.** This sample's studio, seats, usage and renewal dates are invented to show the format. The list prices are real and dated, in USD as published. Your statement shows what you are actually charged.
